

# eDOC AS

## We create data quality!

### Technical Documentation

#### Your demand is our command

From instructions for use for consumer goods to complete technical documentation for a packaging plant. eDOC AS supports you depending on your needs whether in small and large projects around the creation of your technical documentation.

We enhance your project with the technical know-how and experience of our technical writers.

#### From Risk Assessment to CE marking

The operating manual of the machine or plant is a central element of your product. Due to the increasing complexity of machines and systems, the requirements for accurate and comprehensible technical documentation are also increasing.

eDOC AS supports you in creating your operating instructions for efficient and smooth handling of your products.

#### We get your technology!

We guarantee our customers individual solutions, field-proven service and integrated performance.

We work according to ISO DIN EN 9100 and promise the highest quality, transparency and consistency standard.
